Customer Reference/Order Number:

Number of Returned Items:

Unit Serial Number	Logger Type/Part Number (e.g. TGE-0001)	Calibration Points (tick as appropriate)		Standard calibration points are 10, 250, 700 and 1,000A. Plus Power Factor and Power on each phase, across single and three phase supplies. Should you wish to specify other points see note 3 and specify your chosen points in this column.
		Standard	Other	

PLEASE NOTE:

1. Calibration is for a logger with a single set of Rogowski Coils, these must be returned with the logger. Without the coils we will be unable to calibrate the unit until the probe is supplied.
2. All goods must be returned clean and free from potentially hazardous contamination. We reserves the right not to service or repair goods which do not meet this condition.
3. Calibration certificates can be issued for a 240v ±10V mains supply with mains frequency of 50Hz ±1Hz. Loggers will be energised for a period of not less than 1 hour on a UK Mains supply.
4. Standard Terms and Conditions apply. Refer to www.omniinstruments.co.uk for details.
