

Yacht anemometer

Anemometer Type 454

For weather observers, amateur meteorologists and yachtsmen, the yacht anemometer is the ideal instrument for measuring wind speed. Its robust sensor design and splash-water protected indicating instrument render the yacht anemometer suitable for use also under harsh environmental conditions. As the instrument requires no supply and is simple to install, it can be placed in operation quickly and without complications.

Product range:

- Anemometer measuring range 0 - 100 km/h
- Anemometer measuring range 0 - 100 km/h with additionally sealed indicator.
